

• CONFIDENTIAL PROPOSAL / [MC-YYYY-###]

[Engagement title] Proposal

A focused engagement to help [Client Name] turn a complex opportunity into a clear, durable AI capability.

PREPARED FOR	PREPARED BY	DATE / VALID THROUGH
[Client Name]	Stephen Barr	[Month DD, YYYY]

• 01 / OPPORTUNITY

Make the complex legible.

[Write a concise two-to-three sentence executive summary: the client's current situation, the opportunity, and the business outcome this engagement will create.]

The opportunity

[Describe the strategic context, why this matters now, and the cost of leaving the current state unchanged. Keep this grounded in business impact rather than technology alone.]

[Add a second paragraph with relevant evidence, constraints, or stakeholder priorities.]

What success means

- [Measurable business outcome]
- [Operational or team outcome]
- [Technical capability outcome]
- [Risk, governance, or adoption outcome]

SIGNAL / 01

[Metric]

Primary measure of business value or improved performance.

SIGNAL / 02

Measure of speed, adoption, quality, or operating leverage.

SIGNAL / 03

[Metric]

Proof that the capability can endure beyond the engagement.

• 02 / SCOPE

Build what matters.

01 / DISCOVER

[Workstream one]

[Describe activities, collaborators, and the concrete output for this workstream.]

02 / DESIGN

[Workstream two]

[Describe activities, collaborators, and the concrete output for this workstream.]

03 / BUILD

[Workstream three]

[Describe activities, collaborators, and the concrete output for this workstream.]

04 / ENABLE

[Workstream four]

[Describe handoff, enablement, governance, and lasting capability.]

OUT OF SCOPE

[List explicit exclusions, dependencies, or items that require a separate change order. Clear boundaries protect both parties.]

• 03 / DELIVERY

From signal to system.

01	Align Frame the problem, baseline the current state, and agree on proof.	TIMING [WEEK 1]	OUTPUTS [Discovery brief, success measures, delivery backlog]
02	Prove Make the idea tangible through focused experiments and working software.	TIMING [WEEKS 2-3]	OUTPUTS [Prototype, evaluation results, architecture decisions]
03	Build Turn the strongest path into a dependable production-ready capability.	TIMING [WEEKS 4-7]	OUTPUTS [Production system, controls, observability, documentation]
04	Transfer Embed the operating model and knowledge needed to sustain momentum.	TIMING [WEEK 8]	OUTPUTS [Handoff, training, roadmap, governance pack]

WEEKLY WORKING SESSION

Decisions, demonstrations, and practical unblockers.

ASYNC PROGRESS SIGNAL

Concise status, risks, asks, and the next milestone.

EXECUTIVE CHECKPOINTS

Outcome review at moments that change scope or direction.

• 04 / INVESTMENT

A clear path to value.

[Engagement model]

[Summarize the commercial structure and what the investment includes.]

TOTAL INVESTMENT

[plus applicable taxes]

MILESTONE	TIMING	FEE
[Milestone one] [Associated outputs]	[On signature]	[\$XX,XXX]
[Milestone two] [Associated outputs]	[Date / event]	[\$XX,XXX]
[Milestone three] [Associated outputs]	[Date / event]	[\$XX,XXX]
Total Professional services	—	[\$XX,XXX]

PAYMENT TERMS

[Example: Net 15 from invoice date. Work begins after signature and initial payment.]

EXPENSES

[Example: Pre-approved travel and third-party expenses billed at cost.]

CHANGE CONTROL

Material changes to scope, timing, or assumptions require written agreement.

PROPOSAL VALIDITY

[Example: Fees and availability held for 30 days from proposal date.]

• 05 / PARTNERSHIP

Built together. Made to last.

Stephen Barr

LEAD CONSULTANT / MESHCRAWLER

Stephen works deeply in AI, enterprise systems, and the software practices that turn promising ideas into durable capabilities. He also serves as VP of AI at the Trilogy AI Center of Excellence and runs The AI-First Show.

↗ [Client names an accountable executive sponsor and day-to-day lead.]

↗ [Required data, systems, SMEs, and environments are available on schedule.]

↗ [Client retains responsibility for final legal, privacy, and regulatory approval.]

↗ [Third-party licenses and consumption costs are excluded unless listed.]

↗ [Decisions and feedback are returned within an agreed response window.]

↗ [Add engagement-specific assumption or dependency.]

• ACCEPTANCE

By signing below, the parties acknowledge that this proposal accurately reflects the intended scope, delivery approach, commercial terms, and assumptions. A mutually executed services agreement will govern where one is required.
